EXPERIENCE

Chateau Nursing and Rehabilitation Center

Willowbrook, IL

Certified Nursing Assistant

- Assisted geriatric patients by supporting activities of daily living; personal hygiene, provided comfort measures, maintained safety, vital sign monitoring, measuring intake and output, assisted with feeding, reported changes in patient status to staff nurse, provided proper documentation of care

**August 2010-
April 2013**

Symphony Post-Acute Network

Chicago, IL

Wound Care Coordinator/Nurse Supervisor/Skilled Nurse

- I oversee an average of 25 patients per shift with skilled needs. I manage care for skilled patients through admissions and discharges. I assess changes in acute status, need for orders, interpret, and communicate appropriate lab results. I liaise between patient and physician to ensure patient comprehension and treatment plan. I precept staff nurses to provide quality care and act as patient advocates. I treat patients who have both acute and chronic wounds, including burns, pressures ulcers, and surgical incisions that had not yet healed. I identify wound types, analyze trends, and assess the wound healing process by providing thorough, pertinent documentation.

**April 2013-
October 2019**

**ROSELAND COMMUNITY HOSPITAL
CHICAGO, IL
ACU (TELEMETRY/MED-SURG)**

- Encourage and reinforce teaching of disease process while relating to individuals of different cultures. Maintain appropriate aseptic technique for the preparation of procedures and administration medications/injections. Consistently monitor patient's cardiac rhythms and inform MD of any abnormalities. Provide skilled intravenous therapy that requires initiation and administration multiple drugs to treat acute illness. Delegate nursing care to appropriate personnel. Provide therapeutic communication to patients.

**November 2019-
Present**
