## Additional Information

---

Skills Adaptable Ambitious Aggressive Conscientious Dedicate

I have accurately practiced the art of taking blood pressure, using skin calipers to calculate body composition, and performing exercise tests using cycle ergometers, treadmills, and free weights during my academic career while having my CPR training in the fore front. Throughout my professional

career I have acquired numerous skills: language proficiency, skillful with computers and their various software, medical and supplemental sales experience, and ability to analytically solve situations.
