## Work Experience

---

### **RN**

TEnet - el  
Present

#### Responsibilities

Registered nurse specializing in care of Neonatal patients.

#### Accomplishments

Worked on a team specializing in the care of newborns and neonates in need of intensive care ranging from severe prematurity, sepsis, hemodynamic and cardiac stabilization. Working along side neonatal team including registered nurses, nurse practitioners, neonatologists and respiratory therapists to help achieve optimal and safe patient care.

#### Skills Used

Competency in skills such as treatment and assessment of infants requiring critical care. Educating families regarding the health and condition of their infant. Enabling families to understand and partake in the care of their infant as their condition improves and stabilizes.
