OBJECTIVE

I am a registered nurse seeking an opportunity with an integral company that allows me to grow while providing the highest level of patient care. Notable interpersonal skills and accountable for adhering to policies, standards of care, and standards of practice.

EDUCATION

Azusa Pacific University, High Desert, CA

December 19, 2020

- ❖ Bachelor of Science in Nursing
- ❖ Sigma Theta Tau Honor Society Member, GPA: 3.7

CLINICAL EXPERIENCE

- ❖ **Medical-Surgical** **Desert Valley Hospital: Victorville, CA**
During Medical-Surgical clinical I assessed the patient's condition, administered medications, changed dressings, monitored vital signs, kept records, and provided patients with support and education.
- ❖ **Obstetrician** **St. Mary's Hospital: Apple Valley, CA**
During my Obstetrician clinical I monitored the baby during the birth, coached the mothers, monitored contractions, and assisted in the administration of pain medication.
- ❖ **Psychiatrists** **Riverside University Medical Center: Riverside, CA**
During Mental Health clinical I assessed mental health symptoms of the patients, helped diagnose and treat patients, monitored patients in a psychiatric facility, and educated family members about a patient's condition and care plan.
- ❖ **Community Health** **High Desert Second Chance: Hesperia, CA**
During Community Health clinical I participated in volunteer work at the High Desert Homeless Shelter and at High Desert Second Chance. I cooked, cleaned, and educated the homeless.
- ❖ **Pediatrics** **Riverside University Medical Center: Riverside, CA**
During Pediatrics clinical I provided medical care to infants, children, and adolescents. I changed diapers and educated the patient and the parents about their diagnosis.
- ❖ **Critical Care** **St. Mary's Hospital: Apple Valley, CA**
During Critical Care clinical I monitored patients for changes in status and indications of conditions such as sepsis or shock and institute appropriate interventions, set up and monitored medical equipment and devices such as cardiac monitors, mechanical

ventilators and alarms, oxygen delivery devices, transducers, or pressure lines, and administered medications intravenously, by injection, orally, through gastric tubes, or by other methods.
