Epic Software NexGen

WORK EXPERIENCE

Assistant Nurse Manager
Peak Pediatrics 07/2021 - Current

Work day includes a combination of telephone triage, assisting Support Staff with scheduling issues, and managing MA workflow such that the needs of our patient population are met within our clinic setting. Responsibilities also include promoting productive and accurate communication between providers and families.

Nurse Team Manager
Clinica Family Health 04/2019 - 06/2021

Duties consist of managing patient and pod flow which include nurse visits, co-visits, and walk-ins. Assess triage calls and walk-ins with emphasis in identifying changes in clinical signs and symptoms and initiating appropriate treatment options. Collaborate with other health care professionals to ensure optimal patient health outcomes. Administer medications as required to include IV fluids, STI treatments, and completing any necessary phlebotomies. Promote and provide patient education regarding acute and chronic diseases, prevention, and health maintenance.

Registered Nurse
Saint Joseph Hospital (Orthopedic/Neuro) 03/2017 - 03/2019

Provided exceptional care for up to 5-6 patients daily, with needs ranging in severity from pre and post-surgery to acute health conditions. Daily tasks consisted of monitoring patients for any physiological and psychological changes in condition, and responding appropriately with a thorough knowledge of nursing interventions regarding the patient's medical condition. Personal goals include promoting healing and education for patients, while maintaining a safe, clean, and collaborative working environment to ensure patients receive the highest quality of care.
