Objective: Seek a registered nurse position working in the operating room.

## Work Experience

---

### **Operating Room Nurse**

Bon Secours St. Francis Hospital - Charleston, SC  
October 2018 to October 2018

Present SC. Advocated nursing care for all ages within the operating room. Assisted in proper patient positioning, case set-up with sterile technique, and transporting of the patient to recovery, while also documenting throughout the procedure.

### **Perioperative Nurse**

Charleston ENT Surgery Center - Charleston, SC  
September 2014 to September 2014

Present Advocated preoperative nursing care for all ages by documenting updated history and physicals, current vital signs, and starting an IV, if necessary. Also, advocated nursing care for all age ranges within the operating room when needed. Assisted in patient positioning, case set-up, and transporting the patient to recovery, while also documenting throughout the procedure. Precepted new employees and helped cross-train current employees into the operating room and pre-operative areas.

### **Registered Nurse**

Roper Hospital - Charleston, SC  
November 2013 to November 2013

September 2014 Advocated nursing care for adults within a cardiac and vascular surgery setting. Performed preoperative assessments and documented throughout all procedures. Assisted in patient positioning, sterile set-up, and transporting the patient to recovery.

### **Registered Nurse II**

MUSC - Charleston, SC  
October 2008 to November 2013

Nov. 2013 Advocated nursing care for children and adults within a surgical setting. Performed brief assessments and documented throughout the procedures.

Prepared a sterile field with multiple instruments for many different surgeries.

Provided assistance to surgeons and residents at the sterile field.

### **Clinical Nurse**

University Hospital - Augusta, GA  
March 2007 to March 2007

Sept. 2008 Advocated nursing care for three to five patients on a telemetry unit.

Performed assessments and documented every four hours. Delivered medications appropriately including cardiac IV drips if needed.

Monitored heart rhythms, vital signs, and lab values, and notified Doctors appropriately.

### **Clinical Nurse**

University Hospitals Health System - Cleveland, OH  
July 2005 to July 2005

March 2007 Advocated nursing care for five to six patients. Documented assessments and reported changes in patient status. Performed treatment procedures including medication administration, complex dressing changes, suctioning and tracheotomy care, and catheter irrigation appropriately. Utilized knowledge by teaching self-care to discharged patients. Delegated apt tasks to nursing aides.
