## Experience

March 2022 to  
Current

### **AdventHealth of Ottawa** Ottawa, KS

#### **Registered Nurse, Medical-Surgical Unit**

- Assessed and prepared patients for procedures, performing initial and ongoing patient assessments.
- Administered medications and treatments as directed and as appropriate for patient's medical care in collaboration with multi-disciplinary team.
- Updated physicians on patient test results and assisted in developing care plans.
- Performed blood and blood product transfusions and intravenous infusions to address patient symptoms or underlying causes.
- Oversaw patient admission and discharge processes to coordinate related paperwork.
- Assisted patients with healing and recovery after surgery by closely monitoring and caring for wounds, answering questions and educating about continued care strategies.
- Counseled patients and caregivers, providing emotional, psychological and spiritual support.

July 2021 to Current

### **Olathe Medical Center** Olathe, KS

#### **Registered Nurse**

- Coordinated care with physicians and other clinical staff to prepare for treatment, carry out interventions and enhance continuum of care.
- Assisted terminally ill patients with bathing, grooming and dressing.
- Monitored patients' respiration activity, blood pressure and blood glucose levels in response to medical administration.
- Collected lab specimens, ordering and interpreting diagnostic tests and lab results.
- Performed blood and blood product transfusions and intravenous infusions to address patient symptoms or underlying causes.
- Assessed patients in active drug and alcohol withdrawal and provided interventions to manage physical and psychological withdrawal symptoms.
- Evaluated intensive care patients, recognized and addressed complications and coordinated treatment with other members of critical care team.
- Confirmed proper functioning of life support equipment such as ventilators and

feeding tubes.

May 2021 to Current

**Shiftkey**

Kansas City, KS

**Registered Nurse**

- Administered oral, IV and intra-muscular medications and monitored patient reactions.
- Responded promptly to changes in conditions and emergency situations to deliver expert care in line with good practices and patients' wishes.
- Monitored resident health with regular assessments to check on conditions and care efficacy.
- Collaborated across departments to meet residents' long-term care needs.
- Helped patients and families feel comfortable during challenging and stressful situations, promoting recovery and reducing compliance issues.
- Assessed patient conditions, monitored behaviors and updated supervising physicians with observations and concerns.
