San Antonio, TX 78218

thomaspasquale03@yahoo.com

210-236-9733

Hard working, knowledgeable, very experienced , and loyal RN

Authorized to work in the US for any employer

Work Experience

Electronic ICU Guardian ICU

Tenet Healthcare - San Antonio, TX

January 2019 to Present

I am one of 8 nurses qualified to work in the EICU . Monitoring 90-180 patients and each nurse is responsible for 30 - 80 patients . We monitor all pts via remote ecg as well as cctv and during each shift any problems are handled by myself or one of the other 2 RN's per night. We run all code blues and intervene as much as possible per protocols and at which time our 1 MD is with us and he will give any rx needed for pt intervention. With the onset of covid over 50% of our population is intubated and covid +. I also still work any free days at the bedside usually 3-4 nights a week in addition to 3 nights in EICU

Utilization Management Nurse Consultant

UnitedHealth Group - San Antonio, TX

March 2014 to July 2015

March 2014 to July 2015

Responsibilities

After being transitioned from a contracted employee with the highest performance numbers I was hired as a Utilization Management Nurse and preceptor due to my high productivity and adherence to medicare and state guidelines for determination of requests from medical providers throughout Texas and Florida

Accomplishments

I was the only nurse reviewing and completing an average of 30 cases or more per day

Utilization Management Nurse

Aerotek - San Antonio, TX

October 2013 to March 2014

Responsibilities

Responsible for medical review of minimum of 25 cases per day to determine the meeting of Medicare criteria thus making a determination of requested services by medical doctors and facilities.

Accomplishments

I was one of the top three performers after only 3 months, and always helped other UM nurses make their quota, to include nurses that have been employed greater than 2 years at this employer.

Skills Used

Critical thinking as well as extensive experience used to help me make determinations on requests by medical facilities and doctors

Registered Nurse

HCA Northeast Methodist Hospital - Live Oak, TX

January 2010 to November 2013

I started out as a Resource RN staffing mainly ICU, PCU, ER, and Telemetry. then after a brief illness came back as a charge nurse in the CTU. I am profficient in the use of vents, all kinds of drips, as well as all type of lines. I regularly complemented by patients to my supervisors in survey's.

In CTU I transitioned all levels of patients from Emergency Room to appropriate level of care. This includes stabilizing and treating all levels of patients; to include but not limited to ICU, PCU, Tele, Med/Surg, Oncology and Surgery. This also included the full completion of patient admitting and all initiating of therapies as well as stabilization of critical patients and initiation of all core measures, prior to any transferes to other floors.

Registered Nurse

Baptist Medical Center - San Antonio, TX

July 2007 to October 2009

I started out as a neonatal intensive care nurse responsible for level 1 thru level 3 nicu babies. Then after just 2 months was also asked everyday scheduled off to work adult SICU, so i would regularly work three nights in NICU and three to four nights in SICU. I was also on the RRT as well as nicu high risk birth team.

I provided primary care for all age groups of patients. I was able to float and provide exemplary care for all patients in the hospital. I was able to take the highest work load and highest acuity patients. I was regularly placed in charge of precepting new nurses.

ICU NURSE

Kindred Healthcare - San Antonio, TX

September 2006 to January 2008

Provided care for up to three critically ill patient's in the icu in an LTACH setting. Pt's were very complex with many comorbiditie's. I worked here full-time as well as at St Luke's at the same time. I won employee of month on 4 occassion's.

Telemetry Nurse/ICU/PCU/NICU

St. Luke's Baptist hospital - San Antonio, TX

March 2004 to June 2007

As a high tech ICU nurse I was responsible for primary care of critical patient's to include fresh hearts, micropreemie babies, neuro icu patient's as well as pcu pt's.

On PCU I would precept new RN's on pt care critical hemodynamics as well as pull out central lines, heartcath sheaths and more. I was the only nurse who could do L&D, NICU, SICU, CCU, PCU and telemetry at that time. I was selected as employee of the quarter and worked seven days a week on a regular basis.

Primary Care Nurse

Christus Santa Rosa Home Health - San Antonio, TX

March 2003 to March 2005

provided homehealth care for hightech pediatric patients to include ventilator dependent, and phrenic nerve stimulated pediatric patients. was pulled from easier cases to most complex cases due to abilities and patient satisfaction requests. always on call on days off and would precept new nurses to vents and high tech equipment.

Provided all aspects of healthcare for medically complex patients (with tachs, g-tubes, central lines, v/p shunts and other high tech devices). As a primary nurse I was responsible for being with patients during transport to and from hospitalizations and doctor appointments. I was put on any cases that needed service recovery, as well as high skilled nursing to ensure best patient outcomes.

Nighttime-Weekend Facility Supervisor

Golden manor - San Antonio, TX

April 2003 to May 2004

Duties included but not limited to directing and providing care for Geriatric and Skilled nursing patients. I was in charge of up to 12 Nurses and 16-18 cna's at a time. I was known to all the residents as the most compassionate as well as most experienced nurse. I was responsible for integrating a medicare acceptance into a previously total private pay facility.

Nurse/ MCCH Pool/ PICU

Methodist Health System - San Antonio, TX

October 2001 to March 2003

Provided primary care for critically ill pediatric patient's as well as eventually all other areas of children's hospital. was a major component in the ICU. The PICU was rated at that time in the top 100 in the U.S.

RN Weekend and Nighttime Supervisor

Trinity Care Center and Rehab. Facility - San Antonio, TX

August 2001 to March 2003

Provided primary care for medicare skilled nursing patients as well as chronically ill child wards of the state. These patients were ventilator dependent and total care patients. Also provided direction and handled all aspects of running the facility while working with patient care. Patient care was notably improved with my taking over facility management on nights and weekends. Known by all patients and families for getting things done right.

Charge Nurse

Rosewood Care Center - San Antonio, TX

January 1999 to April 2000

Provided exemplary patient care for longterm care patients in a skilled nursing facility. Provided highly skilled nursing for all levels of acuity in the facility. would regularly run with up to 90 patients at a time when other nurses called in, and still provided all aspects of their care in the shift.

Alzheimer Unit Charginurse and Nighttime Facility Supervisor

Broadway Lodge Nursing and Rehab - San Antonio, TX

March 1998 to April 1999

Provided all aspects of care for a locked alzheimer's unit and directed all levels of care and operations for all dept.'s in the facility at night.

Charge Nurse

Blanco vista nursing and rehabilitation center - San Antonio, TX

January 1997 to April 1998

Provided sole nursing care for 60 patient's at night. To include 16-20 peg tube's as well as 6-10 trach patients on top of the genral medicare wing population. When I left under good term's it took 2 nurses to replace my position at night and still requires 2 nurses to provide the same level of care that I provided for over a year. I was employee of the month on 3 occasions.
