PERSONAL STATEMENT

I am an enthusiastic new graduate with outstanding patient care and employment references. Balancing work and school full-time through a pandemic, I further developed time management skills and maintained focus to achieve my goal of becoming a Registered Nurse. I am eager to master new skills within a fast paced environment and offer a combination of diverse clinical knowledge and critical thinking abilities. With over three and a half years' experience working on a Behavioral Medical-Surgical unit, I have provided care for acutely ill patients experiencing co-occurring medical and psychological disorders. My strong background in patient care and consistent work ethic make me a valuable addition to any medical care team.

WORK EXPERIENCE

Sr. Psychiatric Technician

Strong Memorial Hospital - Inpatient Medicine in Psychiatry

📅 July 2018 - current 📍 Rochester, NY

- Promote patient care delivery as part of a multidisciplinary team ensuring HIPPA and accurate documentation in the electronic health record.
- Obtain vital signs and accurately record in E-Record and report information according to established procedures
- Preceptor for newly hired psychiatric technicians
- Provide individual patient care needs including but not limited to:
- Assist patients with personal and daily care, such as bathing, oral hygiene, and assistance with feeding for those unable to feed themselves.
- Perform phlebotomy and collect samples
- Performing EKG's
- Accurately document patient intake and outputs
- Assisting patients with ambulation and safe transfers
- Prevention of hospital acquired pressure sores through proper and frequent positioning
- Implement fall precautions
- Perform safe restraining techniques

Home Health Aide

Family Care Services of WNY

📅 October 2014 - May 2016 📍 Buffalo, NY

- Assist with ADLs and direct patient care for geriatric patients requiring total care
- Perform safe patient transfers including the usage of Hoyer Lifts
- Tasks included personal hygiene, assistance with mobility and transfer, patient feeding, light cooking and house-keeping
- Responsible for honest and reliable home health care
