Work Experience

RN/CMS

Grifols Biomat Plasma Donation Center - Albuquerque, NM

June 2021 to Present

Physicals and medical evaluations of potential and current donors. Respond to reactions on donor floor. Employee vaccinations.

Registered Nurse

Memorial Medical Center - Las Cruces, NM

January 2008 to Present

The first seven months I worked on Med/Sur/Oncology as a full time registered nurse. Job specifics include administering medications, charting, assisting patients with ADL, full head to toe assessments, communicating with physicians in order to fully care for my patients and dressing changes among other things. I have also administered chemo therapy on a few occasions. For the past eight years I have been working in the labor and delivery unit. My role on this floor includes communicating with providers, assisting with epidural placements and cesarean sections as well as other minor surgical procedures. I can assist during vaginal deliveries and take care of patients with conditions such as preeclampsia and pre term labor. I manage patients from the antepartum period through during post-partum.
