Travel Nurse, RN Circulator OR

RN Circulator

Ruston Surgical Center/Northern LA Medical - Ruston, LA

December 2007 to October 2021

I worked as a Circulator in surgery between the day surgery and the hospital with the day surgery being where I worked the majority of my time. Our day surgery had four operating rooms as well as four operating rooms at our inpatient hospital. The majority of cases that I circulated were Orthopedic cases like Shoulder Scopes, Knee Scopes, Carpal Tunnel Releases, etc. The hospital provided me experience in larger, more complicated cases like Total Joint Replacements. In addition, I did quite a lot of General Cases; Lap Choles, Appendectomies, Port Placements, Sigmoid Colectomies and Bowel Resections. I have experience circulating Gyn cases, Cysto and ENT because we were required to be familiar with all specialties.
