Work Experience

RN

RI International - Ellendale, DE

May 2017 to Present

The Registered Nurse (RN) position oversees the medical, psychiatric, substance abuse and nursing care for individuals served. The RN position also services as clinical liaison for designated individuals until they are enrolled in services at another community facility. Coordinates services with various public and private community health, mental health and social service agencies to ensure appropriate services for individuals. Assists individuals with preparation and recording of the service planning process. Conducts assessments and treatment plans. Provides individual and family counseling. Participates in the development of educational curriculum. Supervises and/or provides nursing treatment and monitoring, such as diabetes and blood pressure. Administers medication as required by protocol. Responds to crisis calls for assessment and pertinent intervention as needed. Completes clinical documentation as required. Keeps abreast of all federal and state regulations and laws and all RI International policies as they presently exist and as they change or are modified. Performs other related duties assigned. Knowledge of psychiatric medications and their indications, common side effects, reactions and interactions of medications prescribed
