EXPERIENCE

CRITICAL CARE RN, NORTH ALABAMA SPECIALTY HOSPITAL APR 2021-PRESENT

As a critical care nurse, I am responsible for carefully monitoring my patients critical health status, distributing medications, performing in depth wound care, and working with various critical care equipment such as trachs, ventilators, ET tubes, PEG tubes, G/J Tubes, central lines, and other various drains. On occasion, I have to manage and titrate critical continuous IV medication. I managed up to 6 critical patients at a time.

I was Relief Charge Nurse for several months on weekend nights, and managed several codes within that time. I cared for up to 4 patients of my own, some of which in critical condition, while maintaining my duties as charge and aiding my fellow nurses to help care for their patients as well.

MED-SURGE LPN, CARDIOLOGY 1 6 NORTH , HSV HOSPITAL OCT 2020-APR 2021

I worked as an LPN on Cardiology 1, 6 North in Huntsville Hospital. As a cardiology nurse, I am responsible for assessing my patients, distributing medications and deciding which medications to withhold based on the patients condition and cardiac status, reading telemetry rhythms continuously, maintaining hematological homeostasis post procedures such as Caths TAVR or PPM, evaluating pacemaker effectiveness on telemetry, and responding to MIs and other code situations.
