Work Experience

Registered Nurse (RN)

DaVita - Modesto, CA

October 2021 to Present

- Oversees the dialysis treatment from start to finish
- Cleans and dresses permanent and temporary catheters
- Monitors patient and adjusts specialized equipment used on patients, and interprets and records information
- Teaches patients and significant others how to manage their illness, by explaining: post-treatment home care needs, diet/nutrition/exercise programs, self-administration of medication, if needed
- Provides pre- and post procedure care to patients within the Hemodialysis Unit
- Assess patients throughout treatment
- Delegate tasks to technicians
- Collaborates with providers

LPN (Licensed Practical Nurse)

Bridgeview Estates - Twin Falls, ID

January 2020 to December 2020

As an LPN I plan and manage care according to each patient. I also take in information about their medical history, current physical exam, and current assessment data.

Accomplishments include:

- Covid Care
- Covid Injections

RCP/Med Tech

Syringa Place - Twin Falls, ID

January 2019 to October 2019

As an RCP we did CNA work such as assisting with bathing, eating, dressing and more. As a Med Tech we passed out medications, took vital signs, requested more medications when needed and helped the RCP.

- Critical Care Experience
- Tube Feeding

Certifications and Licenses

CNA

October 2018 to March 2021

A certified nursing assistant's (CNA) main role is to provide basic care to patients, as well as assist them in daily activities they might have trouble with on their own, such as bathing. Because of the personal nature of the job, a certified nursing assistant job description must include people skills and the ability to be compassionate and enjoy helping others. In nursing or long-term care facilities, a CNA is often a patient's main caregiver.

BLS/CPR

December 2019 to December 2021
