To obtain a registered nursing position in a hospital, clinic, correctional, or acute care setting.

Work Experience

In-Patient Treatment Center- Registered Nurse.

Summitstone Health Partners - Fort Collins, CO

November 2020 to Present

I am the dayshift nurse in an 16 bed in-patient drug/alcohol/mental health rehabilitation facility. I manage all medications, assessments, documentation, admissions, discharges, monitoring acute detoxing patients, and any emergent situations that may arise. I administer drug tests, pregnancy tests, breathalyzers, and do all blood draws when on shift. I input all doctors orders when appropriate. I work 12.5 hour shifts 3 days a week.

Sclerotherapy-RN.

Total Vein Care - Fort Collins, CO

January 2020 to Present

I do all of Dr. Kauffman's sclerotherapy treatments and follow up appts post treatments. I treat any wounds that may arise from the treatments. I do all documentation related to treatments I provide for my patients.

Sub-acute, LTC RN

Columbine Commons Health and Rehab Facility - Windsor, CO

December 2017 to October 2020

I was the Night shift charge nurse with 15 med/surg patients and 15 LTC patients.

I supervised two CNA's and we worked as a team to care for our 30 patients. I was the only nurse in the building overnights and was in charge of all patient care, meds, blood draws, IV's, tube feedings, insulin pumps, vaccine administration, covid test administrations, and documentation on all 30 patients.

Real Estate Agent

Lucas and Associates - Birmingham, AL

June 2013 to December 2017

Realtor for all of greater Birmingham, AL area.

Charge Nurse of Sub-Acute Rehabilitation

Four Corners Health care Center - Durango, CO

October 2007 to May 2013

27 bed floor.

I was in charge of all medicare assessments, wound care, admissions, discharges, overseeing other nursing staff and working hand in hand with P/T, S/T, and O/T services, managing all wound vacs, and hanging and monitoring all IV fluids.

Scheduling and arranging transportation for all doctors appts, working side by side with doctors. Transcribing all doctors orders and making sure they got carried out. Doing all blood draws, working closely with patient family members at all times. Educating staff and patients when needed.
