### **House Supervisor**

ProLink Staffing - Memphis, TN

August 2021 to August 2022

Ensure high quality care is provided to all patients. Ensure protocols are followed to improve health of post COVID patients.

Communicate inter professionally with all medical professions to create patient specific plans of care.

Provide support to nursing staff and family members of our patients.

### **RN PCC LTACH**

Regional One Health - Memphis, TN

September 2018 to September 2021

I provides daily, shift-to-shift leadership supporting the operations of the department

I also exhibit excellence in clinical patient care, customer services, critical thinking, schedule management, relationship competencies, organizational skills, and acts as a role model.

When i am short staffed I am able to function as PCC and perform as a fellow bedside RN.

### **RN Telemetry Unit**

St Francis

October 2017 to July 2021

### **Registered Nurse**

St Francis Bartlett - Bartlett, TN

October 2017 to July 2020

An emergency room nurse where I complete focused assessments, communicate and teach patients , medication administration, and respond to emergent situations.

Also worked the step down unit. I was responsible for assessments, interventions, and evaluations of clinically ill patients.

## **Respiratory Therapist**

Baptist Memorial Hospital - Memphis, TN

October 2012 to September 2016

Provide emergency care, such as artificial respiration, external cardiac massage, or assistance with cardiopulmonary resuscitation.

Monitor patient's physiological responses to therapy, such as vital signs, arterial blood gases, or blood chemistry changes, and consult with physician if adverse reactions occur.

Read prescription, measure arterial blood gases, and review patient information to assess patient condition.

Set up and operate devices such as mechanical ventilators, therapeutic gas administration apparatus, environmental control systems, or aerosol generators, following specified parameters of treatment.

Enforce safety rules and ensure careful adherence to physicians' orders.

Explain treatment procedures to patients to gain cooperation and allay fears.

Relay blood analysis results to a physician.

Work as part of a team of physicians, nurses, or other healthcare professionals to manage patient care by assisting with medical procedures or related duties.

Inspect, clean, test, and maintain respiratory therapy equipment to ensure equipment is functioning safely and efficiently, ordering repairs when necessary.

Make emergency visits to resolve equipment problems.

Educate patients and their families about their conditions and teach appropriate disease management techniques, such as breathing exercises or the use of medications or respiratory equipment.

Determine requirements for treatment, such as type, method and duration of therapy, precautions to be taken, or medication and dosages, compatible with physicians' orders.
