EMPLOYMENT HISTORY

04/2019 - Present

Licensed Practical Nurse

SSM HEALTH AT HOME

A very dedicated employee with a very good outlook and positive spin on life I took care of people in their home as a traveling nurse I've also done one care on patients gave injections Took their vitals and blood sugars and INR's when needed I've also placed Wound VAC's on patients as well as worked with ostomies and catheters

10/2014 - 04/2019

LICENSED PRACTICAL NURSE/ROOMER

SSM SPECIALTY CLINIC

I was in charge of rooming patients for many practices as well as charting on those patients taking her vitals collecting samples when needed assisting doctors with procedures when asked i've worked with everything from podiatry to oncology. I've always had a good outlook on life and I conveyed that my patients. I was also put in charge of my own clinic inside the facility to do post tibial nerve stimulation on patients with incontinece issues And I ran that for about a year I was also part of the emergency response team and had corresponding training

10/2011 - 09/2014

LICENSED PRACTICAL NURSE/ROOMER

DIVINE SAVIOR CLINIC

In this clinic at work for a pediatrician I was responsible for giving immunizations to children as well as setting up appointments with other doctors. I roomed 27 to 35 patients a day by myself as well as all the other duties I had to write in Wisconsin Immunization registry to make sure that was up-to-date I also helped out other practices in the clinic when needed I was able to do all that and still make the children and their parents feel comfortable with procedures

06/2001 - 10/2010

CNA/LPN

MAPLEWOOD SKILLED NURSING FACILITY

I worked at this nursing home for seven years as a CNA getting people dressed getting them up in the morning assistance with feeding and ADLs adhering to a toileting program And working as a team to ensure the best care possible for the residenceAfter seven years I achieved my LPN degree and began working there for the next two years as an LPN passing medications giving injections when needed. Monitoring blood sugars administering insulin ,changing catheters and wound care while monitoring for any pressure spots I could potentially be sores

EDUCATION HISTORY
