CAREER OBJECTIVE

Hard-working recent college graduate with a Associates Degree in Nursing (ADN) in Nursing (3.2 GPA), with 6 years of work experience. Aiming to leverage academic experience and a proven knowledge of emergency response, acute care facility, and treatment planning to successfully fill the RN role at your hospital. Frequently praised as diligent by my peers, I can be relied upon to help your hospital achieve its goals.

EXPERIENCE

Cardiac ICU-RN

University of Missouri Hospital, Columbia, MO / Jan 2022 - Present

- Set up and monitor medical equipment and devices such as cardiac monitors, mechanical ventilators and alarms, oxygen delivery devices, transducers, and pressure lines.
- Evaluate patients' vital signs and laboratory data to determine emergency intervention needs.
- Administer medications intravenously, by injection, orally, through gastric tubes, or by other methods.
- Administer blood and blood products, monitoring patients for signs and symptoms related to transfusion reactions.
- Assist physicians with procedures such as bronchoscopy, endoscopy, endotracheal intubation, and elective cardioversion.
- Monitor patients for changes in status and indications of conditions such as sepsis or shock and institute appropriate interventions.

EMT-B/PCT

Boone Hospital Center, Columbia, MO / May 2016 - Present

- Administer first aid treatment or life support care to sick or injured patients in prehospital settings.
- Operate equipment, such as electrocardiograms (EKGs), external defibrillators, or bag valve mask resuscitators, in advanced life support environments.
- Assess nature and extent of illness or injury to establish and prioritize medical procedures.
- Provide assistance to ED nursing/physician staff with patient care such as EKG's, phlebotomy, activities of daily living, and basic life support measures.

Children's Critical Care Team(CHCCT's)-EMT-B

Women's and Children's Hospital, Columbia, MO / Feb 2019 - Dec 2021

- Helped with logistics on the CHCCT's team. Responded to high risk deliveries, critical pediatric/neonate patients to outside hospitals, and help with basic life support measures.
