## Work Experience

---

### **Neurosurgery NP**

Freeman Health System

2015 to Present

Currently provides care to patients with neurosurgical needs. This provider assists seeing patients in the clinic and performs assessments and plans for disease processes that affect the brain, cervical, thoracic, and lumbar spine. This provider also sees patients in the hospital setting and is able to do admissions and consults as well as rounds on patients. This provider also assists the neurosurgeon in the operating room with suctioning, retraction and some instrumentation during surgeries spanning cranium to spine. This provider also closes all surgical incision/wounds involving scalp, anterior cervical, posterior cervical, Abdominal approach incisions and posterior thoracic and lumbar incision and or wounds.
