## Work Experience

---

### **RN III ICU**

Spring Valley Hospital Medical Center - Las Vegas, NV

January 2021 to October 2022

- Assess, monitor, and evaluate patient progress
- Provide care to patients in need of intensive care (ie. DKA, TAVR, CABG, Stroke, COVID)
- Updating and Coordinating with healthcare team on patient care
- Providing proper education to patients in the ICU on disease process and unit procedures/protocols
- Update patient family members on patient condition.

### **ICU Travel Nurse**

FlexCare Medical Staffing - Mission Viejo, CA

October 2021 to January 2022

ICU Travel Nurse assigned in Providence Mission Hospital. Work as a Float Pool ICU RN.

Able to adapt to different units needs. Floated to Cardiac ICU, Neuro ICU, and COVID ICU.

Directly responsible for the care given to assigned patients.

Communicate with the physician about changes in the patient's clinical condition including hemodynamic monitoring, results of diagnostic studies and abnormal results, and symptomatology.

Able to respond quickly and accurately to changes in condition and/or response to treatment. Maintains patient privacy and confidentiality.

### **Registered Nurse II**

Spring Valley Hospital - Las Vegas, NV

July 2019 to February 2021

A Registered Nurse level 2 in an IMC unit for a 45-unit bed capacity and a total of 364 bed hospital.

\* Provided patient care during the COVID-19 pandemic

\* Provides safe, competent nursing care for patients in accordance with facility policies, standards, and philosophy.

\* Provides professional leadership and support to the healthcare team.

\* The concepts of Patient Centered Care will provide the foundation for all nursing care.

\* Responsible for taking care of 4-5 inpatients of critical care status such as hemodynamically unstable, cardiac rhythm problems, acute myocardial Infarction, respiratory insufficiency, acute trauma, and acute bleeding

### **Registered Nurse**

Sage Creek Post-Acute - Henderson, NV

August 2018 to August 2019

Charge nurse in a post- acute facility with 60 bed capacity supporting and handling patients to continue recovery from acute illnesses, post-surgery, and disabilities.

\* Able to handle being the charge nurse for the floor and medication nurse assigned in one wing of a four-wing facility. Given all medications on time for the said wing while, as a charge nurse, handling Doctor calls and orders for all the patients in the facility.

\* Pro-actively communicate with and handle all the LVNs and CNAs to improve communication and thus improving workflow and standard of care.

\* Observing and interpreting patient's symptoms and communicating them to physicians.

\* Collaborating with physicians and nurses to devise individualized care plans for patients

\* Trained new employees in a standardized procedure and protocols of the facility.

### **Document Imaging Technician**

St. Joseph Health Mission Hospital - Mission Viejo, CA

September 2017 to September 2018

Prep, scan, and upload patient documents into Medi-tech, ensuring appropriate image quality according to required standards.

\* Uploaded 1200 pages and 43 patient charts efficiently and quickly, despite facing an excessive load of documents and short staffed; leveraged excellent time management and delegation of tasks to exceed the required quota.

\* Pro-actively learned and then cross-trained document imaging staff to process all document types, thereby increasing productivity.

\* Reduced employee turnover rate and improved performance by developing a new evaluation procedure.

\* Implemented a process to expedite picking up documents throughout the hospital.

\* Trained employees in a standardized procedure to improve workflow.

### **Medication Technician**

Brookdale Senior Living - San Juan Capistrano, CA

July 2016 to August 2017

Performed medication management and administered medications to 60+ residents. Performed case management and patient care, including bathing, feeding, lifting, monitoring fluid intake and output, and transferring, while remaining in compliance with HIPAA regulations. Documented patient information.

\* Assumed role of team lead during absence of LVN; by directing, prioritizing, and communicating with staff, all 60 residents received medication on time and were properly cared for by the end of the shift.

\* Handled a critical situation when three residents fell near the shift's end; acted by calling 911, sent two to hospital, wrote incident reports, faxed to doctor's offices, and continued to give medications. All accomplished due to excellent organization and multi-tasking skills.

\* Remained alert to patients' status during acute conditions and drug therapy.

\* Interpreted revised policies and communicated these to staff.

\* Developed a tailored routine for each resident in terms of medication administration, lessening the med-techs time per patient and improving workflow.
