Duties included: Assess client health problems and needs, develop and implement nursing care plans, and maintain medical records. Administer nursing care to ill, injured, convalescent, or disabled clients. May advise clients on health maintenance and disease prevention or provide case management. Administer prescribed medications or starts intravenous fluids, and notes times and amounts on clients' charts. Consult and coordinate with health care team members to assess, plan, implement and evaluate client care plans. Maintain accurate, detailed reports and client records. Modify client treatment plans as indicated by clients' responses and conditions. Monitor all aspects of client care, including diet and physical activity. Monitor, record and report symptoms and changes in clients' conditions. Observe nurses and visit clients to ensure that proper nursing care is provided. Prepare clients for, and assist with, examinations and treatments. Prepare rooms, sterile instruments, equipment and supplies, and ensures

that stock of supplies is maintained. Provide education to client and family. Provide health care, first aid, immunizations and assistance in convalescence and rehabilitation.

Registered Nurse

Select Specialty Hospital - Savannah, GA
July 2017 to 2019

Staff nurse performing the following tasks:

- Conducted individualized patient assessment, prioritizing collection of data based on individual needs and condition.
- Conducted ongoing nursing assessment as dictated by the patient's condition and in accordance with client facility protocols.
- Collaborated with other team members in the development, implementation, and evaluation of an individualized plan of care.
- Performed treatments and therapies as ordered by physician in an appropriate and timely fashion.
- Performed hemodynamic monitoring as ordered by physician in an appropriate manner.
- Provided individualized patient and family teaching.
- Documented patient assessments, findings, and psychosocial responses to nursing interventions.
- Initiated emergency measures according to adult and facility advanced adult resuscitation protocols.
- Maintained confidentiality related to patient, family, facility, and staff in accordance with the Health Insurance Portability and Accountability Act (HIPAA).
- Advocated patient rights with respect to advance directives and organ donation.
- Provided patient care in a non-judgmental, non-discriminatory manner that considers cultural diversity and age appropriateness so that autonomy, rights, and dignity are preserved.
- Reported patient condition to appropriate personnel during each shift as dictated by individualized patient assessment.
- Maintained competency in adult intensive or critical care nursing by participating in continuing education programs and meets state specific requirements.
- Complied with accepted ethical conduct and professional standards of nursing practice as set forth by the American Nurses Association or equivalent national organization.
- Demonstrated ability to delegate effectively and appropriately.

Registered Nurse

Suwannee Medical Personnel - Savannah, GA
March 2003 to December 2015

Contracted RN assigned to render care to patients on ventilators and critical drips in an LTAC facility, and to Medical Surgical and Telemetry patients in various other medical facilities. Accurately documented all elements of nursing assessment, treatments, medications, and discharge instructions and follow up. Evaluated patient care needs, prioritized treatment and maintained patient flow. Performed all tasks with a patient-centered focus while seeking opportunities for improvement of processes and treatments. Used sound, ethical, and independent decision-making abilities consistent with medical protocols.
