Indeed Assessments provides skills tests that are not indicative of a license or certification, or continued development in any professional field.

## Additional Information

---

Original state of RN licensure was Louisiana in 1988 as Lisa Bourne Brand or Lisa A. Brand.

The reason for the overlapping dates is that I sometimes had a staff and agency job or worked for more than one agency and I stayed on staff with some for several years and would work shifts if available during periods of unemployment. Some of these hospitals and agencies in New Orleans may have closed after Hurricane Katrina as those areas were affected. Thank you!
