I am actively looking for part time or full-time position as a Registered Nurse, I currently work for Iowa Masonic healthcare facilities as an RN full time. Will be moving to the Virginia Beach area in March/April, so I'm actively looking for a position as an RN in that area.

I just want to add that if there is a vaccine mandate for the COVID vaccine, I will not be interested in working for your company. I have a valid exemption for my state.

Authorized to work in the US for any employer
