I became a Registered Nurse 2006 after fifteen years as a CNA/HHA while assisting management, and customer service at busy rural restaurant. I am confident in my nursing practice including holistic approach assessment, interpretation, creative interventions, personalized goal setting, and encompassing a mindful collaborative approach. Quality care begins at ones own self reflective core; ability to create calm in the unknown and strength in comprehensive and conscientious compassionate care.

I am seeking 3-4 long days with 3 days off per week. I am seeking balance to provide the best care imaginable while providing same values at home.

Authorized to work in the US for any employer
