WORK HISTORY

RN, Critical Care, 01/2022 to 02/2022

Favorite Staffing – Harvey, IL

- Administered medications to treat patients' symptoms and address underlying disease progression.
- Provided direct patient care, stabilized patients and determined next course of action.
- Protected critically ill patients from unnecessary risks by limiting visitors, using proper PPE and using strong infection control procedures.
- Provided exceptional care to high-acute patients needing complex care such as ventilator management, extensive wound care and rehabilitation.
- Monitored patient condition by interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Personalized bedside care and interactions based on cultural backgrounds of different patients.
- Collaborated with physicians to quickly assess patients and deliver appropriate treatment while managing rapidly changing conditions.

RN, ICU Traveler , 10/2021 to 01/2022

Texas Health Harris Methodist Hospital – Cleburne, TX

- Collaborated with physicians to quickly assess patients and deliver appropriate treatment while managing rapidly changing conditions.
- Educated family members and caregivers on patient care instructions.
- Updated patient charts with data such as medications to keep records current and support accurate

treatments.

- Developed and implemented patient care plans based on physicians' instructions and generally accepted nursing practices.

RN Traveler, 08/2021 to 09/2021

Medical City North Hills – North Richland Hills, TX

- Administered medications via oral, IV and intramuscular injections and monitored responses.
- Collaborated with physicians to quickly assess patients and deliver appropriate treatment while managing rapidly changing conditions.
- Educated patients and answered questions about health condition, prognosis and treatment.
- Followed HCA ethical values and principles and adhered to HIPAA medical record regulations to promote patients' privacy.

Registered Nurse Traveler, 05/2021 to 07/2021

Houston Methodist – Houston , Texas

- Monitored patient condition, including interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Documented all patient interactions and interventions in EPIC EMR, including physical and psychological assessments, care plans, treatment and observations.
- Conducted ongoing monitoring and evaluations of behaviors and conditions, and updated clinical supervisors with current information.
- Communicated with healthcare team members to plan, implement and enhance treatment strategies.
- Explained course of care and medications, including side effects to patients and caregivers in easy-to-understand terms.
- Evaluated healthcare needs, goals for treatment and available resources of each patient and connected to optimal providers and care

Registered Nurse Traveler, 03/2017 to 05/2021

Eastside Medical Center – Snellville, GA

- Developed and implemented patient care plans based on physicians' instructions and generally accepted nursing practices.
- Followed all HCA ethical values and principles and adhered to HIPAA medical record regulations to promote patients' privacy.
- Reflect changes in care plans, interventions applied and observations.
- Monitored patient condition, including interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Administered medications and treatment to patients and monitored responses while working with healthcare teams to adjust care plans.

Registered Nurse, 05/2018 to 03/2021

Baptist Medical Center – North Little Rock, AR

- Monitored patient reactions after administering medications and IV therapies
- Delivered treatments and direct nursing care according to physicians' orders in ICU
- Communicated effectively with patients and family members to convey important instructions and discuss treatments
- Conducted ongoing monitoring and evaluations of behaviors and conditions, and updated clinical supervisors with current information
-
- Provided exceptional care to high-acute patients needing complex care such as ventilator management, extensive wound care and rehabilitation.
- Taught patients how to improve lifestyle choices, dramatically reducing chance of symptom reoccurrence.
- Collaborated with physicians to quickly assess patients and deliver appropriate treatment while managing rapidly changing conditions.
- Participated in nursing simulation activities, evidence-based practice project implementation and competency development to further nursing education.
- Performed arterial cut-downs, inserted central lines and inserted endotracheal tubes as part of trauma team.
- Advised patients and caregivers of proper wound management, discharge plan objectives, safe medication use and disease management..
- Administered medications via oral, IV and intramuscular injections and monitored responses.

Surgical Technologist, 05/2013 to 05/2018

Baptist Health Medical Center – North, AR

- Donning OR attire and personal protective equipment (PPE)
- Assist surgeon during a procedure
- Disinfect all equipment and operating room used after surgery
- Make sure all equipment used is sterile
- Make sure patients are properly positioned and comfortable during procedures
