PROFESSIONAL EXPERIENCE

Registered Nurse II, General Medicine/Surgery
Rush University Medical Center, Chicago, IL April 2019 - Present

- Assess and monitor patients of varying acuity and complexity using critical thinking in order to provide both surgical and medical interventions, augmenting positive clinical outcomes and collaborating with multiple disciplines while advocating for patients and patient autonomy
- Act as night charge nurse in order to be a resource and assistant to fellow floor nurses, medical services, and patients, monitoring the unit, while drafting patient assignments for the oncoming shift
- Act as a preceptor for new nurses, providing education concerning nursing care, flow of nursing tasks and care though out night shift, and providing opportunities for new care experiences
- Participate in unit teams including the Unit Advisory Committee, Tracheostomy team, and Recognition team in order to contribute to unit cohesion with nursing and management, to maintain unit education considering tracheostomy and laryngectomy care, and to recognize staff and continually increase unit moral through various avenues

Home Caregiver for the Elderly

Private Residence, Aurora, IL July 2016 - January 2019

- Assist clients with activities of daily living while actively monitoring client physical, psychological, and social well-being
- Facilitate meaningful cognitive and physical stimulation through activities and therapeutic socialization for dementia related symptoms
- Organize medical and personal appointments and manage medication administration with scheduling needs
- Maintain a safe, secure, and healthy home environment and serve as an advocate for client preferences
