Work Experience

Emergency Room Nurse

Adventist Health - Bakersfield, CA

May 2019 to August 2021

As an emergency room nurse I was responsible for triage, patient assessments, lab draws, IV placement, administration of IV fluids and medications, obtaining consents, assisting with procedures and moderate sedation. Working in the ER, I became very quick and efficient in tasks, while maintaining accuracy and safe patient care. I worked in the main ER where the critical patients were assigned, as well as the fast-track area with the less critical patients.
