Registered Nurse

Authorized to work in the US for any employer

Work Experience

Registered Nurse (RN)

HealthFlex Home Health Services - San Francisco, CA
August 2018 to Present

as a home health RN I visit patients in their homes and strive to provide the best care possible so they could enjoy their lives as independently as possible. I complete my assessments on each visit, report to PCPs if any abnormal findings noted, provide general health education about disease progress and management, explains warning signs that should warrant immediate urgent care; administer IM, SQ and IV medications; do dressing changes, and blood work as prescribed by physician

LVN

Institute on Aging - San Francisco, CA
May 2016 to October 2018

- Administer medications and treatments prescribed by the physician via PO, SQ, IM and transdermal route
- Communicate with pharmacy, clients and families to arrange for delivery of medication to client homes
- Maintain all medications orders and other medication related documentation
- Communicate medication orders to appropriate team members regarding medication changes and updates
- Communicate medication compliance to appropriate team members and pharmacist
- Communicate changes in medication orders to clients, families and caregivers

LVN/QA nurse

HealthFlex Home Care Services - San Francisco Bay Area, CA
September 2015 to July 2016

- Observe, record and report to the appropriate professional the symptoms, reaction and changes including:
 - ✓ general physical and mental condition of patients, and signs and symptoms which may be indicative of untoward changes
 - ✓ stresses in human relationships between patients, between patients and personnel, and between patients and their families and visitors
- Recognize and report symptoms that indicate changes in the condition of the patient to the Case Manager
- Evaluate all aspects of the systems of care, identify problems and develop solutions paying particular attention to the details as well as looking at the organization from a global prospective

Senior ECG Monitoring Specialist

BioTelemetry, Inc - San Francisco, CA

January 2014 to November 2015

- Provide technical analysis of the ECG transmissions in the Cardiac Outpatient Telemetry Service Center and generate reports to the physician
- Evaluate ECG for notification criteria and provide general supervision of Monitoring Specialists
- Educate patients about service and monitor use
- Facilitate orders for monitors and supplies
