Skills

People would describe me as a people person. My own motto to live by is to walk through life with a smile because, being happy is the greatest form of success. I very much enjoy being around others: friends, family, colleagues, and my students. I am very passionate about working with children and work as a certified SLPA in the school district. I am self-motivated, passionate, driven, and timely. I believe that I have strong verbal communication and am adept at working with special needs as well as providing the proper care. Most importantly I am willing to take direction and learn so that I may become better at what I do and who I am as a person.
