PROFILE

Dedicated and compassionate nursing professional seeking position as a Registered Nurse where I may utilize my professional experiences and education, in addition to providing quality safe care and promote health in patients in the community.

EXPERIENCE

RN, Casa Colina Acute Rehabilitation Hospital; Pomona, CA : 09/2019-Present

- Provided skillful and purposeful care to a culturally and medically diverse group of patients including brain and spinal cord injuries, stroke, neurological diseases or disorders, amputations, orthopedic difficulties, multiple traumatic injuries, chronic pain, non-healing wounds, chronic pulmonary diseases, burns and other disabling conditions in a 68-bed unit
- Independently educated patients and families on disease processes and therapeutic regimens, including medication and pain management techniques, along with implementing orders from multidisciplinary teams including Physicians, Specialist, Physical and Occupational Therapist, Speech Pathologist and Neuropsychologist
- Participate in weekly multidisciplinary conferences to discuss and make adjustments to the plan of care in order to meet long and short term goals
- Implemented detailed documentation and bedside shift report in an organized manner to ensure effective and successful communication and continuity of care

RN, Monte Vista Grove Homes; Pasadena CA: 07/2019-09/2019

- Work independently with minimal supervision to determine priorities complete a daily workload including medication administration, assessments, participation and preparing for multidisciplinary meeting to discuss patient goals and progression.
- Supervise LPNs, CNAs and other direct care support staff. Ensures patients receive continuous care during shift changes.
- Create assignments for oncoming staff and distribute work load among LVN's and CNA's.

- Respond to emergency situations and provide end of life care
