## Work Experience

**Barton Memorial Hospital (Travel Assignment)** *RN Emergency Room Feb 2022 – March 2022*

- Prioritize and manage patient care through skilled triage for a vast range of medical conditions.
- Proficient patient assessments and nursing diagnosis.
- Provide patient education, coordinate outpatient referrals and carry out discharge planning.
- Execute intervention according to MD orders, hospital policies and evidence based practices.

**Piedmont Fayette** *RN Emergency Room April 2016 – Jan 2022*

- Performed initial assessment, lab draws, IV lines, EKG's, Doppler's, and other assessments tests.
- Executed quality, evidence based care to critically ill patients.
- Assessed for symptoms and markers for sepsis and rapidly activated septic protocols.
- Facilitated rapid sequence intubations, ventilator management and conscious sedations.
- Expeditious triage for activation of specialized teams for Trauma, Stroke, STEMI and rapid response.
- Utilized expertise data analysis by monitoring vitals and EKG's, while interpreting laboratory findings and imaging results.
- Performed sterile procedures including catheterization, port access/de access and dressing changes.
- Skilled central line, arterial line, port and fistula assessment, management and dressing changes.

**Wellstar** *Registered Nurse, Renal/Telemetry March 2015 - April 2016*

- Provided high quality, direct patient care/assessment, patient documentation, medication administration, discharge planning, patient/family education, peritoneal dialysis.

**WellStar** *Clinical Care Partner - August 2013-March2015*

- Prioritized patient care with the plan of care given by the Registered Nurse
- Partnered with the patient, the nurse and the family in plan for the care of the patient
- Documented vitals, I&O's, status changes and patient activity using EPIC software
- Facilitated each patient with specific orders such as fall precautions, allergies, NPO and strict I&O's
