## Experience

*November 2021-Present*

Neuro ICU • Registered Nurse • Metrohealth Medical Center

*Cleveland, Ohio*

- Provides direct care for stroke, intracranial/subarachnoid hemorrhage, craniotomies and seizure patients.
- Performs in-depth neurological assessments, monitors vital signs, ventilation settings and notifies physicians of changes.
- Collects blood and laboratory specimen for laboratory testing.
- Safely administers and titrates medications in a timely manner and assists patients with ADLs while coordinating care with multidisciplinary care team members.

*May 2021-October 2021*

Vaccine Clinical Lead • Charles River Community Health Center

*Waltham/Brighton, Massachusetts*

- Organized daily patient workflow to ensure no extra vaccine doses are wasted.
- Prepared and administered COVID-19 vaccines while providing patients with proper care and vaccine education.
- Documented vaccine administration, allergies and vital signs.

*March 2019-April 2020*

Medical Scribe • Dr. Arvind Doshi Internal Medicine

*South Plainfield, New Jersey*

- Accompanied physician to examination room documenting procedures and medical visits in real time.
- Captured detailed patient encounters with the provider into EMR.

*October 2017-October 2018*

Ophthalmic Technician • Stahl Eyecare Experts

*Garden City, New York*

- Assisted ophthalmologists with eye treatment, testing and examinations.
- Documented patient history, review of systems, medications, past surgeries and allergies
- Performed dilations, autorefraction, lensometry, topography, OCT and administered visual field tests.

## Clinical Rotations

- Measured and recorded food and liquid intake and urinary and fecal output (I&O) reporting changes to staff.
- Administered medications, fed/assisted clients with meals and reviewed dietary restrictions, allergies, and preferences.
- Maintained accurate, detailed records of medical information and vital signs.
