I am a RN-BSN specializing in Intensive Care seeking a position as a critical care nurse. I am currently an ICU Tier 1 RN-II float at Saint Luke's Hospital on the Plaza in Kansas City, MO.

Work Experience

Registered Nurse Tier 1 Critical Care Float

Saint Luke's Hospital

May 2019 to Present

Registered Nurse Tier 1 Critical Care Float

SAINT LUKES HOSPITAL

May 2019 to Present

As a critical care float, I am trained and certified with Saint Luke's to work with STEMI's, NSTEMI's, strokes, trauma, transplants, sepsis, ventilators, ESRD, ARDS, cardiovascular surgery, and many other critical care patients. I also have to be extremely flexible and open to always learning new things. Each unit has very specific ways of doing things, and it may be very different from the unit you were on the night before. I have a very unique opportunity as a critical care float to learn how to care for patients with all kinds of different illnesses and injuries, and consider it to be a great responsibility and privilege to be able to learn to help so many people.

METROPOLITAN COMMUNITY COLLEGE - Kansas City, MO

Skills

- I am trained and certified with Saint Luke's to work with ventilators, Continuous Renal Replacement Therapy (CRRT), Intra-Aortic Balloon Pump (IABP), and External Ventricular Drain (EVD). I am highly proficient in medication titration, including but not limited to vasopressors and paralytics. I am also TNCC certified. I am FEMA certified in ICS-100 and ICS-200. I am American Heart Association ACLS and BLS certified and phlebotomy trained through Saint Luke's Hospital. I have exceptional people skills, as I have always worked in customer service environments, and enjoy making connections with others. To add to this, I work very well under pressure and in very fast paced environments.
