I want to thank you for the opportunity to apply for the Registered nurse position at your facility. After reviewing the job description it is clear that the candidate you are looking for has to be extremely familiar with the responsibilities associated with the role, and can perform them confidently. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations. I am a college graduate from Dillard University. During the course of my academic career, I also managed to accrue nearly 7 years of work experience. I had the privilege of working for UMC in a Supply Tech role in my free time, where I learned valuable professional skills such as inventory and budgets. In both my academic and professional life I have been consistently praised as hard-working by my professor and peers. Whether working on academic, extracurricular, or professional projects, I apply proven communications, teamwork, and creative thinking skills, which I hope to leverage into the registered nurse role at your facility.

Work Experience

Registered Nurse

UMCNO - New Orleans, LA

December 2018 to Present

Coordinated care with physicians and other clinical staff to prepare for treatment, carry out interventions and enhance continuum of care to deliver comprehensive services.
