I am taking this opportunity seeking new challenges and opportunities for professional growth and advancement. My objective is to find a job where I have room for growth as well as master the experience and skills I already have to offer my employer and learn new ones, if necessary, for the company's and my own benefit.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

Work Experience

Registered Nurse

AMN Healthcare - Miami, FL

August 2021 to Present

M/S nurses provide care and treatment to ill, injured, and recovering adults. The medical-surgical nurse must be able to assess patient condition, administer medications, change dressings, monitor vital signs, keep records, and provide patients with support and education. Some med-surg nurses choose to become more specialized within the broad field of med-surg nursing, pursuing subspecialties such as orthopedics, neurology, wound care, and oncology.

RN

Mount Sinai Medical Center - Miami, FL

September 2019 to Present

- Monitor patient's condition and assess their needs to provide the best possible care and advice
- Observe and interpret patient's symptoms and communicate them to physicians
- Collaborate with physicians and nurses to devise individualized care plans for patients
- Perform routine procedures (blood pressure measurements, administering injections etc.) and document in patients' charts
- Adjust and administer patient's medication and provide treatments according to physician's orders
- Inspect the facilities and act to maintain excellent hygiene and safety (decontaminating equipment, sanitizing surfaces, preparing beds etc.)

Registered Nurse

Mount Sinai Medical Center - Miami Beach, FL

September 2019 to August 2021

Consults and coordinates with health care team members to assess, plan, implement and evaluate patient

care plans

Prepares and administers (orally, subcutaneously, through an IV) and records prescribed medications.

Reports adverse reactions to medications or treatments in accordance with the policy regarding the administration of medications by a licensed registered nurse

Educates patients on surgical procedures
Records patients' medical information and vital signs
