Work Experience

Registered Nurse

BSN

April 2018 to Present

I worked in the Emergency Department, both Adult and Pediatric. This Academic Medical Center is a Level I Adult and Pediatric Trauma Center Emergency Room. I had the privilege of caring for patients of all ages and included their family members in my care. Care was provided to patient's with many conditions; some acutely ill and requiring intensive care, others with chronic condition requiring urgent care for management of longer term treatment

Pediatric Emergency Department - I served as a preceptor to new graduate and experienced nurses. I served in a leadership role as a charge nurse. I completed a Pediatric Trauma Boot Camp, specifically designed by and for the nurses in our department. I acted as a Drop Nurse, caring for pediatric patients during the trauma and resuscitative phase, as well as Scribe Nurse, documenting all relevant findings during the trauma and resuscitative phase.

Registered Nurse

BSN

November 2015 to March 2018

i began my career as a Graduate Nurse in the Float Pool, providing care to patients of all ages with acute illnesses and chronic conditions requiring inpatient medical treatments and therapy. This included patients with Neurological, Cardiovascular, General Medical-Surgical, Postpartum Mom and Baby care, and ICU Telemetry patients.

Cardiac Catheterization Lab - I initially care for pre and post cardiac and vascular surgery procedures, including: TEE, Cardioversion, EP Procedures, Cardiac Catheterizations, and Vascular Surgeries. I transitioned to the lab, where I cared for patients during Cardiac Catheterizations, during routine diagnostic studies and STEMI's. This included assessing patients, medicating for pain management and anxiety related procedures, assisting physicians and technologists with procedures.
