SUMMARY

Experienced nursing professional bringing demonstrated clinical expertise in Medical Surgery and Intensive Care Unit. Proficient in charting on numerous EMAR systems, working with multidisciplinary teams to optimize patient care and managing BLS and ACLS needs to stabilized patients based upon facility/nursing standards and protocol. Quality-driven and efficient with strong interpersonal abilities.

EXPERIENCE

Vibra Specialty Hospital (ICU/Med Surg), Desoto, TX – Registered Nurse | August 2021 – April 2022

- Work to stabilize critically ill patients by providing continuous assessment/monitoring of patient's progress and identification of any sudden or subtle changes in the patient's medical condition.
- Operated and maintained equipment including but not limited to; IV tubes, feeding tubes, oxygen tubes, catheters and other life sustaining equipment.

Baptist St. Anthony's (ICU/Med Surg), Amarillo, TX – Registered Nurse | April 2021 – August 2021

- Provided nursing care for patient populations including cardiopulmonary, minor trauma, geriatric, psychiatric and general internal medicine on Medical Surgery unit.
- Assessed patients' condition, administered ordered medications, changed wound/surgical dressings, monitor vital signs, and provided patients with support and education.
- Initiated patient education plan, as prescribed by physician. Educated patients and family members how to manage their illness/injury by providing information regarding post-treatment home care needs, diet/nutrition/exercise programs, self-administration of medication and rehabilitation.

Berwick Hospital (ICU/Med Surg), Berwick, PA – Registered Nurse | August 2020 – April 2021

- Provided care to patients with mechanical ventilation, vital IV drips and other IV infusions.
- Worked collaboratively with physicians to provide medication and other treatments to stabilize patients.
- Provided care to pre-operative and post-operative patients recovering from anesthesia and or other invasive to extensive surgeries and traumas.
