- 5. Cox South Hospital, Springfield, MO 03/2016-12/2016**
Registered Nurse (Med-Surg/Telemetry)

During my career as a registered nurse on medical surgical/telemetry floor

- ◆ Performed nursing assessments, documented them in EHR (Cerner, Epic, Meditech).
- ◆ Administered medications (oral, sub Q and IV).
- ◆ Communicated with care providers and other departments of about patient needs and their plan of care. Collected specimen from patient for lab work, and did wound dressings.
- ◆ Advanced skills in trach care, tube feeding, colostomy, maintaining peripheral iv, midlines, picc lines and ports, wound and ostomy care.
- ◆ Collaborated with the patient and their families in the plan of care, educated them about their treatments, did admissions and discharges, and supervised nursing staff.
- ◆ Coordinated patient care with other departments like radiology, lab, pharmacy.
- ◆ Interacted with physicians, residents, PT/OT, case managers, patient's families and coordinated their care.
- ◆ Followed up closely with my patients with genuine compassion, supported their healing process to develop long term trusting relationships.
- ◆ Educated patients about their plan of care and motivated them to take better care of themselves.
