Work Experience

ICU Travel RN- Critical Care Float Team

University Of Washington - Seattle, WA

September 2021 to Present

Work in a 33 bed CVICU and float to 4 different ICU Units when needed to care for critically ill patients, that required a higher level of care, that required close monitoring. I work with all different diagnosis to include Cardiac, Covid, ARFS, Vascular, Medical and Surgical high acuity patients. I also work in the Emergency Quick Decision Unit as a Triage RN, when needed. I have worked on the IV Therapy Team on several occasions, as well as the Rapid response team. I have been asked to renew 3 times with extensions, completed all. I am currently working on the end of this current contract.

As a ICU Travel RN,

- Implemented Plan of care for Critically Ill ICU patients that were COVID -19 positive and needed a higher level of care.
- Rounded with the interdisciplinary teams for the daily plan of care and progress of the critically ill patient.
- Cared for critically ill patients that were hemodynamically unstable from different disease processes, which has required a higher level of care.
- LVADS, A-Lines, Ventilators, ABG's, IV Starts, PICC Line maintenance, and Hemodynamic monitoring set up and care for the patient with:

Central venous pressure lines, Subclavian lines, Swan-Ganz catheter, Arterial catheter. Hemodynamic measurements: Central venous pressures, Pulmonary artery pressure, Pulmonary Artery Wedge pressures, and Cardiac output.

- Titrating and maintaining several Vasoactive Drips, IV infusions, Antiarrhythmic, Sedative, and Paralytics.

Travel Critical Care Float Nurse

Bon Secours Richmond Division Hospitals

April 2020 to February 2021

13 Week Contract with Crisis Rates) . Floated throughout St. Mary's, Richmond Community, Memorial Regional Hospital, St. Francis Hospital Critical Care units.

Registered Nurse hired to float throughout the Bon Secours Health System Critical Care Units during the COVID 19 PANDEMIC initial start of overwhelming all ICU'S. I was responsible for the care of 1:1 patient ratio for patients that were in Multi-System Failure, ARDS, Mechanically Paralyzed for successful ventilation, Cardiac Arrest, Cardiac Pacing, Cardiovert, Care of PICC lines, 99% IV and Midline Placement

Rate. RN that floated throughout 4 Major Bon Secours Hospitals as a TRAVELING CRITICAL CARE FLOAT NURSE.

Charge Nurse/Registered Nurse

Cumberland Hospital for Children and Adolescents - New Kent County, VA
December 1996 to May 2020

Cumberland Hospital is one of the few Dual Diagnosis hospitals for children and Adolescents. Most of the patients there have a medical and psychological problems. Currently i work on the Neurobehavioral Unit, children and Adolescents that have had a neurological damage that affects their behavior. Also , i work with the Autistic patients, eating disorders , mood disorders and residential patient. I administer medications, write treatment teams, and facilitate groups for the patients and residential. I worked fulltime until 2012, went PRN thereafter.

Registered Nurse III CRITICAL CARE FLOAT

VCU Health System - Richmond, VA
May 2008 to April 2020

Cared for critically ill patients, that required a higher level of care, that required close monitoring
As a supplemental staffing RN, I may work on several units throughout my shift. CVICU, BURN ICU,

MRICU, NEUROSCIENCE ICU, CCU, CSICU, STICU, OICU, Transplant Unit, PCU, Interventional Radiology, PACU, Pre-Op, ER (ICU hold over patients), Relief coordinator on PCU, and IV therapy, are the units in the critical Care Bundle, that I have floated to and worked as a RN. In the Interventional Radiology Units, I learned to place PICC lines and midlines, using 3CG machine and fluoroscopy, along with working on the IV therapy team also. In IR I also Assisted doctors with surgeries and non-invasive procedures. I also floated to the Psychiatric floors North 3 and North 4, also to the Security Care Unit for the Inmate Population..
