## PROFILE

Experienced Critical Care Registered Nurse seeking a travel position that will allow me to continue to grow as a professional intensive care nurse, while also lending my skills to hospitals and healthcare workers in need. Over 6.5 years of experience in a variety of intensive care settings including: Cardiovascular Surgery, Neurosurgical, Trauma, and COVID intensive care.

## Experience

### **\*Travel Contract\* Intensive Care Unit, University of Washington Medical Center Northwest; Seattle, Washington — November 2021 - January 2022**

Responsible for managing the care of critically ill patients with a variety of conditions. Managing co- morbidities, ventilatory support and weaning, telemetry monitoring, titrating of vasoactive drips, lab draws and IV insertions, managing central line dressings, maintaining therapeutic levels of various drugs, coordinating care between physicians and other disciplines. Also managed therapies such as CRRT, IABP, and targeted temperature management.

### **\*Local Contract\* Lung Rescue Intensive Care Unit (ECMO Unit), Methodist Hospital; San Antonio, Texas — July 14, 2021 - Present**

Managing the care of critically ill COVID-19 patients requiring ECMO therapy. Assisted as part of a team managing ECMO circuits, as well as several other life sustaining devices, continuous renal replacement therapy, vasoactive drugs, and other intensive therapies.

### **\*Travel Assignment\* Intensive Care Unit, Methodist Hospital Texsan; San Antonio, Texas — March 30, 2021 - June 26, 2021**

Managing the care of adult patients post open heart surgery, CABG, valve repairs, TAVRS, post cardiac arrest with targeted temperature management, patients with electrocardiogram abnormalities, and various types of cardiac monitoring including swans. Also managed devices such as CRRT and IABP.

### **\*Travel Assignment\* Intensive Care Unit, Adventist Health Ride-out Hospital; Marysville, California — December 21,2020 - February 1, 2021**

Assisted as part of COVID-19 staffing relief, managing intensive care level COVID-19 patients. Managed patient with increased oxygen needs such as heated high flow nasal cannula and other non-invasive ventilation, as well as patients requiring intubation and proning therapy. Titrating multiple drips and communicating patient needs with the interdisciplinary team.

**Trauma/Neurological Intensive Care Nurse, Providence Sacred Heart Medical Center; Spokane, Washington — June 2020 - March 2021**

Responsible for the care of critical neurological and trauma patients. Managing EVD and lumbar drains, bolts, stroke care and management, and post operative craniotomies. Also managed the care of level one trauma patients with multiple injuries and fractures, frequently running mass blood transfusion protocols with a level one transfuser.

**Cardiac Intensive Care Nurse, Providence Sacred Heart Medical Center; Spokane, Washington — May 2017 - June 2020**

Responsible for the care of critical cardiac patients. Pacific Northwest Region's largest ECMO facility. Managing the care of adult patients post open heart surgery, CABG, valve repairs, TAVRS, IABP, VADs, post cardiac arrest with targeted temperature management, patients with electrocardiogram abnormalities, post heart transplant patients, and various types of cardiac monitoring including swans.

**General Intensive Care Nurse, Kindred Spring Hospital; Spring, Texas — February 2016- May 2017**

Responsible for managing the care of critically ill patients. Managing co-morbidities, ventilatory support and weaning, telemetry monitoring, titrating of vasoactive drips, lab draws and IV insertions, managing central line dressings, maintaining therapeutic levels of various drugs, coordinating care between physicians and other disciplines.

**EDUCATION**
