- To continue to grow and evolve in my professional role as an emergency department registered nurse.

Work Experience

Emergency Department, RN

Rhode Island Hospital - Providence, RI

June 2019 to Present

- Provide safe and high-quality emergent care to those requiring emergency treatment with consideration to provider orders, hospital policies, prioritization, and standards of nursing practice.
- Monitor, document, report, and respond to changes in patients' conditions.
- Critical thinking to determine what type of monitoring may be appropriate (telemetry, continuous pulse oximetry, etc).
- Familiarization with heart arrhythmia's and increasing level of care with ordered treatment.
- Prepare patients for examinations and further assist the provider with those exams.
- Prioritization and preparation for patient deterioration.
- Protocols and regulation consistent with infection control during a pandemic.
- Experience caring for trauma and critical care patients.
- Assist with bedside procedures in accordance with hospital policies (e.g. time out).
- Safe medication administration and use of an Omnicell.
- Documentation with Epic.
- Working as part of a multidisciplinary team while caring for a wide-range of populations.
