**Intrafusion- Clinical Infusion Nurse Manager**  
**Comprehensive Rheumatology Care**  
**Hendersonville, Tennessee**  
**October 2013- Present**

Serving as a nurse in a busy, outpatient, satellite rheumatology infusion clinic. Responsible for the management of all day to day practices including but not limited to: management of infusion nurses and medical assistants, maintaining inventory, ordering supplies, scheduling of patients and nurses, and communicating with office staff, nurses, providers, patients, and corporate staff. Provided direct patient care including but not limited to: obtaining IV or port access, mixing and hanging medications, calculating medication doses, administering SQ/IM medications, managing adverse reactions and events, assisting in various research studies, collecting specimens, and maintaining aseptic and clean environment. Responsible for various administrative duties including but not limited to: assisting with prior authorizations, financial assistance, peer-to-peer reviews, insurance predeterminations, collecting co-pays, preparing physician orders for insurance review, maintaining consents, keeping federal and state regulations up to date, interviewing and hiring of new staff. Since in this position the office has shown an eight hundred percent growth in patient population. Have also served on advisory boards within the company. Was a co-presenter for an accredited CEU class for nurses discussing rheumatology diseases.

**Clarksville Cancer Care- Oncology Registered Nurse  
Clarksville, Tennessee**

**February 2013- October 2013**

Served as an oncology registered nurse in a busy outpatient oncology clinic. Responsible for providing direct patient care including but not limited to: obtaining IV and port access, mixing and hanging oncology medications, administering SQ/IM medications, managing adverse reactions and events, collecting lab specimens, supervising techs, and assisting in various in-house procedures including bone marrow biopsies. Assisted in various administrative roles including but not limited to: scheduling patients and drug shipments, maintaining supplies and inventory, arranging biohazard removal and other services, obtaining medications through specialty pharmacies, and ensuring insurance authorization are on file and current.

**Gateway Medical Center- Cardiovascular Registered Nurse  
Clarksville, Tennessee**

**May 2008- April 2012**

Served as a cardiovascular registered nurse in a twenty-three bed cardiovascular unit. Responsible for all activities of daily care for patients and the initiation and maintenance of all medical equipment and devices including but not limited to: foley catheters, chest tubes, intravenous and central lines, feeding and NG tubes, stomas, wounds vacs and dressings, drains, restraints, cardiac monitoring, and oxygen and bi-pap titration. Ensured all physician orders were executed in a safe and effective method, patients were cared for safely and with dignity, and that any changes in patient status were addressed promptly. Promoted to charge nurse with the added responsibility to oversee peers and delegate tasks as necessary, ensure drug inventory was updated and correct, maintain crash cart and emergency supplies, make assignments for nurses, and handle any complaints.
