Work Experience

Registered Nurse

Chatuge Regional Hospital - Hiawassee, GA
May 2021 to November 2021

Med surg nurse at a small critical access hospital. Responsible for assessment of patients, treatments, medications, iv placement and use, communication with doctors and families, documentation and direct patient care.

Director of Nursing (DON)

Salem Care Center - Salem, MO
August 2020 to September 2020

Implementing new policies and procedures when necessary. Overseeing hiring, firing and development of nursing staff. Communication with residents, family and physician. Developing a business plan and budget for the nursing department. Participating in creating resident care plans and ensuring they are followed. Ensuring compliance with all local, state and federal regulations.

RN Charge Nurse

Hillcrest Care Center and The Towers
April 2020 to August 2020

Provide medical nursing care as well as ADL with compassion. Communicate with outside medical offices, accurate and complete documentation, delegation and supervision of staff.

RN

Gardenview Care Center - O'Fallon, MO
August 2019 to November 2019

Providing care for long term care residents, memory care residents as well as rehabilitation clients. Most of all what I have learned, make people smile.

LPN

Shiftkey, LLC - Dallas, TX
January 2016 to July 2019

Provide caring, compassionate and comprehensive nursing care at various long term care facilities as the need arises. Typical nursing responsibilities can include G tube care and use, suprapubic catheter care, colostomy care, trach care, wound care, PO medication administration, IV and IM

medication administration, diabetic monitoring and care, ADL's, delegation of tasks to staff, accurate and comprehensive documentation. Requires the ability to be extremely adaptable, able to learn quickly and independently, work cooperatively with different staff members at each facility. Maintain the highest quality patient care and confidentiality. Independent contractor.

LPN

Austen Dooley Co - Lee's Summit, MO
December 2014 to November 2016

Providing care to individuals with developmental disabilities as well as a variety of more complex medical needs in an independent supported living and group home environment. Responsibilities include documentation, communication with outside medical offices, medication administration, diabetic monitoring, seizure monitoring, G tube use and care, suprapubic urinary catheter care, colostomy care, trach tube care, monitoring of all concerned disease processes as well as preparing special diet meals daily, assistance with ADL's, and providing social and emotional support.

Business Owner

Mad Dog's Sportsmans Bar - Warrenton, MO
March 2010 to October 2012

Managed all aspects of a restaurant/bar including compliance with health department, fire and liquor control regulations, hiring and training employees, inventory, bookkeeping, advertising and promotions. Also worked shifts as waitress, bartender and short order cook.

Registered Veterinary Technician

Legends Animal Hospital - Eureka, MO
June 2007 to November 2009

Responsibilities include receptionist duties and providing impeccable customer service. Patient care ranging from medication administration, critical care, isolation protocols, surgical preparation of patients, anesthesia monitoring, post operative care, radiology, dental cleanings, autoclave, IV catheter placement with fluid administration, laboratory testing of blood, urine and fecal samples.

Registered Veterinary Technician

The Animal Emergency Clinic - St. Louis, MO
June 2000 to August 2007

A fast-paced work environment requiring patience, endurance, critical thinking and compassion. Patient cases ranged from small injuries to massive trauma, acute and chronic illness, end of life care, critical care, isolation and surgery for a variety of species. Responsible for all patient care including medication administration (PO, IV, IM and SQ), wound care, IV catheter placement with fluid replacement, blood product administration, surgical prep, anesthetic monitoring, post op recovery and care, radiology, laboratory testing of blood, urine and fecal samples, daily care and maintenance of patients.

Associate of Applied Science in Veterinary Technology

Jefferson College - Hillsboro, MO

May 2001

Nursing Licenses

RN

Expires: January 2023

State: GA

Skills

- I have worked as a nurse for almost eighteen years, beginning as a Veterinary nurse in emergency medicine for the first seven years. After a three year break, during which I owned and ran a small pub and grill, I attended the Washington School of Practical Nursing graduating with Highest Scholastic Honors. I worked for a company taking care of residents in group homes, then in rehabilitation and long term care facilities.
