Driven and compassionate Intensive Care Registered Nurse with 2 years of experience in a Magnet designated facility. Dedicated to best-in-class patient care with individualized plans for families and patients. Adept at working closely with multidisciplinary teams and ancillary staff for comprehensive healthcare to advance patient care. Looking for a position in a top-notch facility with a commitment to innovative processes.

Authorized to work in the US for any employer

## Work Experience

---

### **Infusion RN**

Accredo Health Group - Dallas-Fort Worth, TX

August 2020 to Present

My responsibilities include autonomously caring for patients with various illnesses and administering a wide range of specialty medications based on the individual needs of the patients in the home setting, such as, monitoring throughout treatment, addressing any adverse reactions and responding and reporting appropriately, creating plans of treatment maintaining orders from providers, I also specialize in pulmonary hypertension treatment and education, teaching patients how to mix their medications and use their pumps as well as monitor them and help titrate them on their oral pulmonary hypertension medications and educate them on side effects and how to mitigate symptoms.

### **Staff RN**

UMC Health System

January 2016 to Present

- Medical Intensive Care Unit • UMC Health System
- ❖ Provide compassionate care to critically ill patients suffering from a wide variety of acute and chronic diagnoses encompassing respiratory, gastrointestinal, neurological, cardiovascular, and endocrine disorders.
- ❖ Assess patients on a continuous basis and intervene for safe and appropriate patient care.
- ❖ Educate and communicate with patients and family members about diagnoses, plan of care, and expected procedures.
- ❖ Actively communicate with physicians and multidisciplinary team about patient status and acute changes as appropriate for patient care.
- ❖ Familiar with equipment utilized in the ICU including CPAP, Bi Pap, Hi-Flow nasal cannula, ventilator, monitors, IV pumps, etc.
