I am an experienced and competent nurse in the field for over 20 years. I am experienced in the areas of: LTAC, Emergency Room Holding, Vent Care, Home Health, Administration, Program Development, Employee Health, Preceptor, Teaching, Pediatrics, Staff Training, Chart Auditing, Adolescent Care, Mentoring, Medication Teaching, Disease Process Management and teaching, Psychiatric Nursing, Pediatrics, Staffing Coordination, Immunizations, Hiring Process, Wound Care, Emergency Care, DOT Drug Screening Certified, Medsurg., Orthopedics, Diabetes, ADHD, Substance Abuse, Oncology and Special Immunology (HIV). I have also had training in areas such as emergency response, ventilator management, IV infusion therapy and alternative medicine including therapeutic touch and chelation therapy. 2 years as a registered nurse and 18 years of experience working as an LPN in direct healthcare, and home health settings and 5 years in Administration. Strong interpersonal communication skills, with both patients and other members of a healthcare team. Fast and effective assessment of a patient's current condition and nursing care plan needs. Rapid recognition of and response to changes in a patient's condition or concerns with their recovery or a decline in their current condition. Experience using multiple medical record and electronic medical record management systems, along with the ability to quickly adapt to new or updated electronic systems.

Proven ability to carry out all aspects of a nursing care plan, including the management of patient medications and the performance of specialized LPN Procedures, Supervisory experience working with certified nursing assistants and non-certified medical aides. Skills Used chest tubes, NG tubes, nephrostomy, gastro tubes, cast care, pin care, traction care I V lines, all types, tracheostomy care, renal, I & O catheterization pediatric and geriatric basic care urinalysis, culture and sensitivity rehabilitation support functions finger sticks psychiatric basic care wound and burn care.

Private duty nursing, labor and delivery, observation, private duty care plan development. Postpartum, new-born nursery family, aide, LPN care integration I am an extremely fast learner and adapt well to new situations. Experienced in health care data entry and retrieval. Able to update and maintain customer information. Competent in providing various patient care activities to meet patient's physiological, psychological, social, and cultural needs.

Clinical experience as a nursing student including inserting/removing Foley catheters, sterile procedures (wound care, tracheostomy care, PICC line dressing changes), hanging primary IV bags/piggybacks/TPN, inserting intravenous lines, obtaining blood draws, delivering enteral nutrition via NG-tube and G-tube, and administering medications (IV, subcutaneous, intramuscular, intradermal, topical, transdermal, and oral). Familiar with triage, focused assessments, and critical care activities through Emergency Department Senior Practicum experience. Thank you for your consideration.
