## EDUCATION

---

**West Coast University**  
*Master of Science in Nursing*

**Projected graduation date May 2020**  
*Anaheim, CA*

**West Coast University**  
*Bachelor of Science in Nursing*

**June 2019**  
*Ontario, CA*

- Nursing GPA 3.4
- Dean's list 2016-2017-2018

## SKILLS

---

- Continuous Renal Replacement therapy management of machine and patient.
- Targeted temperature management.
- Proning therapy.
- Management of machine and patients requiring LVAD.
- Proficient in triaging, patient focused care, and acuity based on patient condition, especially during rapid responses, code blue.
- Proficient in the use of various infusion pumps i.e. Sigma, Alaris, Infusomat, PCA, Kangaroo.
- Proficient in the use of Pupilometer, Accucheck, Freestyle, StatStrip/StatSensor, Hemochron, POC
- Proficient in various medication administration modalities i.e. IV infusion, IV push, IM, SQ, SL, PCA, topical.
- Proficient in wound care
- Proficient in assisting physicians with procedures such as bronchoscopy, Tracheostomy, endotracheal intubation, EGD, central line placement, invasive monitoring placement.
- Proficient in ensuring that ventilator, monitors and other types of medical equipment function properly.
- Proficient in various documentation modalities i.e. EPIC, Meditech, Evident, Allscripts, Cerner, Point Click Care, paper/hard copy

## CLINICAL ROTATIONS

---

Menifee Valley Medical Center: Preceptorship Emergency Department. 90 hours

- Triage patients according to level of urgency, prioritize nursing care for assigned critically ill patients based on assessment data and identified needs

- Monitor the critical patients for changes in status and indications of conditions such as sepsis or shock and institute appropriate interventions
- Assess, monitor, and record patients' vital signs, signs, and symptoms
- Assist physicians with medical procedures
- Provide education and support to patients and families, assessing family adaptation levels and coping skills to determine whether intervention is needed

Arrowhead Regional Medical Center Hospital: Advanced Med Surg SICU/MICU. 135 hours

- Monitor and record symptoms and changes in patients' conditions and inform physician
- Order, interpret and evaluate diagnostics tests to identify and assess patient's condition
- Document patients' treatment plans, interventions, outcomes, or plan revisions
- Modify patient treatment plans as indicated by patient's response and conditions
- Monitor the critical patients for changes in status and indications of conditions such as sepsis or shock and institute appropriate interventions
- Monitor patients' fluid intake and output to detect emerging problems such as fluid and electrolyte imbalances
- Assess patients' pain levels and sedation requirements
- Assess family adaptation levels and coping skills to determine whether intervention is needed

Head Start, Orange County: Public Health. 90 hours

- Monitor, research, and evaluate community health to identify and solve problems, including identifying and investigating problems and health hazards impacting health in the community
- Make plans that support individual and community health efforts
