I am an ambitious and compassionate nurse (graduated May 10, 2019) aspiring to practice, acquire, and improve skills to promote health across the nursing care continuum. I have a desire to improve the health and well-being of the communities I serve, using a collaborative approach for quality care. I am an honest, responsible and ethical nurse who will prioritize effectively and follow through on commitments. I am very motivated to positively impact and educate my patients utilizing thorough time management and skills.

Charge Nurse and Nurse Supervisor/MDS Coordinator

Kings Grant Retirement Community

June 2019 to September 2020

276-634-1000 Responsibilities include: managing staff, overseeing patient care and ensuring adherence to established policies and procedures. I am charged with assigning staff and monitoring their activities,

and with helping to recruit and train new personnel. I am also an interface between my staff, their patients, and the patients' families, as well as between my staff and the physicians. Administrative duties are another sizable part of my responsibilities. Patient care is my main focus as a nursing supervisor. I spend part of my time providing hands-on care to patients, but primarily oversee the patient care provided by shift nurses. As supervisor, I ensure there are sufficient nurses assigned to each shift to care for the number and type of patients on the floor. I ensure that the care the nurses provide to their patients is appropriate and comprehensive, and that staff-patient interactions are handled the right way. I also interact directly with patient's family members to answer their questions and ease their concerns.

CCU Registered Nurse

Kings Grant Retirement Community
July 2019 to January 2020

276-666-7200 Responsibilities include: Providing direct patient care to the patient population assigned, considering patient age, growth and development, and diagnosis while using the nursing process in accordance with applicable scope and standards of practice. Performing plan of care for patients and provided life sustaining measures with medications as needed working with Ventilators, external pacemakers, stroke care, CVP pressures, NG tubes, Foley Catheters, Arterial lines, IV insertion, Dobutamine/Dopamine drips, sedation such as fentanyl, versed, and diprivan, participating in code blues. I am a direct line between patients, physicians and family members to ensure comprehension of plan of care. Also serving as an patient advocate and teaching about disease process and management.
