Work Experience

nurse

METHODIST HEALTHCARE - San Antonio, TX
July 2021 to Present

In an outpatient blood cancer and stem cell transplant clinic I manage patients receiving chemotherapy treatments, blood products and a number of other infusions. I perform transplants and monitor patients for months to years after for GVHD and infections. I educate my patients and their caregivers on signs and symptoms of infection and GVHD. I access/de access ports and also perform central line removals.

nurse in LDRP I

COVENANT HEALTHCARE - Saginaw, MI
February 2019 to June 2021

managed labor and delivery, recovery after a c-section and postpartum patients and their infants. I assess women and their infants and report back any abnormal findings to physicians. I assisted mothers with breastfeeding and how to take care of an infant. I educate mothers and their families on safe sleep, shaken baby syndrome, postpartum depression etc.

Nurse Case Manager

FIRST STATE HOME HEALTH AND HOSPICE CARE - Saginaw, MI
2018 to 2018

As a nurse case manager, I managed my own patients and their care team that were made up of therapists and home health aides. I visited patients in their home settings and assessed them and managed their care. I drew labs, performed dressing changes on wounds, PICC line dressing changes, changed out Foley catheters and suprapubic catheters. I had to check INR readings weekly and call in the results. I have gained confidence and autonomy while working as a home health care nurse.

Registered Nurse

MIDMICHIGAN HEALTH - Midland, MI
2018 to 2018

As a resource nurse I am qualified to work on multiple med/surg units and multiple hospitals within MidMichigan. I was responsible for assessing patients and reporting abnormal findings to the physicians. I administered medications along with blood products. I worked very closely with assistive personnel and delegated tasks as needed.

Registered Nurse

UNIVERSITY OF MICHIGAN - Ann Arbor, MI
2017 to 2018

As a nurse on the HEM/ONC unit I was responsible for assessing patients and reporting abnormal findings to the physicians. I administered medications along with chemotherapy and blood products almost daily. I worked very closely with assistive personnel and delegated tasks as needed.

Education

Associate in Applied Science degree in Registered Nursing in Medical Dr. Apt

WASHTENAW COMMUNITY COLLEGE - Ann Arbor, MI
