WORK EXPERIENCE

Registered Nurse

- Central Texas VA Health Care System – Temple, TX- July 2019 to April 2022

As a Registered Nurse. I am responsible and accountable for all elements of the nursing process when providing and/or supervising direct patient care on the Cardiovascular Med-Surg floor. I effectively demonstrate successful nursing practice characterized by using sound clinical judgment, and characteristics of critical care nursing practice in assessment/reassessment, analysis, nursing diagnosis, planning of interventions, outcome identification, and evaluation of human responses of individuals to care/treatment; triage and prioritization; stabilization and resuscitation; directs the delivery of nursing care and leadership provided through assignment, delegation and supervision of ancillary staff and through committee participation, patient care and discharge instruction.

Aviation Operations Specialist (Military Service)

United States Army Reserves - Fort Hood, TX - February 2010 to February 2018

As an Aviation Operations Specialist my duties include but are not limited to support to the S3, checking accuracy of flight plans, coordinating flight plans, maintaining flight logs on incoming and outgoing flight, handling classified materials and information, interprets and post weather reports, and maintain individual flight records and functional files.

Student Nurse Technician

Central Texas VA Health Care System – Temple, TX- July 2017 to May 2019

I performed duties such as checking vital signs, checking blood glucose levels, assisting patients with basic needs such as providing showers, performing post anesthesia assessment on patients including checking items such as, respiratory, circulatory, level of consciousness and/or all types of drainage tubes, changed colostomy/ostomy bags for patients, recognized unusual and/or adverse reactions to surgery or anesthesia, promoting safety, range of motion, feeding, and collection of specimens.

Patient Care Technician

Parkland Hospital - Dallas, TX - October 2012 to April 2013

I performed duties such as checking vital signs, checking blood glucose levels, assisting patients with basic needs such as providing showers, performing post anesthesia assessment on patients including checking items such as, respiratory, circulatory, level of consciousness and/or all types of drainage tubes, changed colostomy/ostomy bags for patients, recognized unusual and/or adverse reactions to surgery or anesthesia, promoting safety, range of motion, feeding, collection of specimens etc. I also answered phones, maintained patient records and any other duties given by a registered nurse.
