Work Experience

Travel Nurse

ProLink Healthcare

March 2017 to Present

BLS and ACLS certified, currently float between ICU and IMCU

Active and current RN licenses in Indiana and Illinois

Responsible for all patient care, including med passes, bathing, wound care, telemetry strip interpretation

Communicate with hospital staff regarding patient condition and progress

Communicate with ProLink regarding current placement, time cards, and next assignment

Clinical Case Manager

Community Hospital - Munster, IN

June 2016 to March 2017

Utilize Interqual, then later MCG, to determine if diagnosis meets criteria for admission, and if not, communicate with physicians to facilitate patient movement or discharge

Work with patient, families, floor nurses, and social services to determine patient's discharge needs and work together to make it happen

Collaborate with physicians to create a care plan that gets the patients the treatments they need as soon as possible to minimize time in the hospital

Communicate with insurance companies to let them know what is currently going on with the patient and what the discharge plan is

Critical Care Float RN

St. Anthony Hospital - Michigan City, IN

August 2015 to June 2016

Float to any department, including ICU, Telemetry, Med/Surg, Ortho, Rehab and Oncology.

Be aware of each unit's standards of care and treat patients accordingly.

Can float to up to three units during a 12 hour shift, so need to always be caught up in case of need to float to a different department.

Night Shift Supervisor-IMCU

Porter Hospital - Valparaiso, IN

April 2010 to August 2015

Night shift supervisor, meaning I am responsible for flexing staff to best meet the needs of the floor, supervise employee's actions so that they are in compliance with Porter's policies, respond to all patients needs, be a resource person for staff for questions and problems, and provide written warnings in an attempt to improve performance

Received Indiana nursing license February 2010

ACLS certified

Perform all nursing care to patients, including skin care and completely reassess patients every four hours, while performing hourly rounding on patients while using AIDET

Continuously monitor patients' heart rhythms on monitor and notify doctor when a critical change happens.

Pass medications to patients as appropriate.

Provide education to patients and families concerning disease process, medications, and any other concerns they may have.

Phlebotomist

St. Mary Medical Center - Hobart, IN

December 2008 to April 2010

Work in central processing sending specimens to testing laboratory

Work with nursing staff to ensure proper laboratory tests are ordered in the computer

Facilitate communication between nursing units and phlebotomy so that STATs are attended to in a timely manner

Responsible for both inpatient and outpatient blood draws

Education

Associate's Degree in Nursing in Nursing

Ivy Tech Community College - Valparaiso, IN

January 2008 to December 2009
